- Notes:
1. Includes students in full-time out-of-district special education, comprehensive AVTSSs, charter schools, state-owned schools, consortium-operated alternative high schools, and juvenile correctional institutions.
 2. Enrollment projections beyond five years are subject to errors in the lower grades resulting from inconsistencies between actual and projected live births and should be reviewed closely.
 3. Four year old kindergarten students, if any, added to K enrollments.
 4. Elementary and secondary ungraded students were distributed among the grades. Therefore, enrollments by grade may differ from those reported by the local education agencies.

NATIONAL LOW INCOME HOUSING COALITION

Dedicated solely to ending America's affordable housing crisis.

Out of Reach 2005

Danilo Pelletiere, Research Director

Keith Wardrip, Research Analyst

Sheila Crowley, President

This edition of *Out of Reach* is dedicated to NLIHC Founder Cushing N. Dolbeare, who passed away in March. Cushing was one of the nation's leading experts on federal housing policy and the housing circumstances of low income people, and was the original author of *Out of Reach*.

Media Contact: Nicole Letourneau, National Low Income Housing Coalition, 202-662-1530, nicole@nlihc.org.

“Despite the emphasis on homeownership, renter households still make up fully one-third of the households in the United States – nearly 36 million households. *Out of Reach* is a side-by-side comparison of wages and rents in every county, Metropolitan Area (MSAs/HMFAs), combined nonmetropolitan area and state in the United States. For each jurisdiction, the report calculates the amount of money a household must earn in order to afford a rental unit at a range of sizes (0, 1, 2, 3, and 4 bedrooms) at the area's Fair Market Rent (FMR), based on the generally accepted affordability standard of paying no more than 30% of income for housing costs. From these calculations the hourly wage a worker must earn to afford the FMR for a two-bedroom home is derived. This figure is the Housing Wage.”

PENNSYLVANIA

In Pennsylvania, the Fair Market Rent (FMR) for a two-bedroom apartment is \$745. In order to afford this level of rent and utilities – without paying more than 30% of income on housing – a household must earn \$2,485 monthly or \$29,818 annually. Assuming a 40-hour work week, 52 weeks per year, this level of income translates into a Housing Wage of:

\$14.34

In Pennsylvania, a minimum wage worker earns an hourly wage of \$5.15. In order to afford the FMR for a two-bedroom apartment, a minimum wage earner must work 111 hours per week, 52 weeks per year. Or a household must include 2.8 minimum wage earners working 40 hours per week year-round in order to make the two-bedroom FMR affordable.

In Pennsylvania, the estimated mean (average) wage for a renter is \$11.25. In order to afford the FMR for a two-bedroom apartment at this wage, a renter must work 51 hours per week, 52 weeks per year. Or, working 40 hours per week year-round, a household must include 1.3 workers earning the mean renter wage in order to make the two-bedroom FMR affordable.

1: FMR = Fair Market Rent (HUD, 2005; final as of October 1).

2: AMI = Area Median Income (HUD, 2005).

3: "Affordable" rents represent the generally accepted standard of spending not more than 30% of income on housing costs.

4: Annual income of 30% of AMI or less is the federal standard for extremely low income households. Does not include HUD-specific adjustments.

5: Estimated mean renter wage is based on BLS data and adjusted using the ratio of renter to overall household income reported in Census 2000.

* 50th percentile FMR (See Appendix B).

Pennsylvania Top 50 Employers

The Top 50 Employers section lists the largest employers ranked by number of employees. Employers must be covered under the state or federal unemployment compensation (UC) system to be included and each UC account is treated as a separate entity except for state and federal government employers which are summarized into two government entities for each list. These statewide and county lists are compiled quarterly. The initial data, which is subject to revision, is available seven months after the end of the reference quarter. For example, fourth quarter initial data is available in July.

Historical data and final quarterly data are available by contacting our Customer Service Center at 717-787-6466 or toll-free at 1-877-493-3282.

County Profiles

County Profiles are a compilation of selected economic, geographic, and demographic data for Pennsylvania's 67 counties. This statistical snapshot includes information in the following areas:

- Map of the county, showing cities, highways, and railroads
- Population of the county (total, projected, and age distribution)
- Labor Force and unemployment rate
- Personal income (per capita, total, and median household)
- Major employers by industry sector
- Employment and wages by industry sector
- Wages by major occupational group
